

# CU (Control Unit) P3010, P5010 & P6010, 0117924

- For vacuum pumps P3010, P5010 and P6010.
- CU with electric valves for vacuum on/off and blow-off.
- Mechanical valve for blow-off flow adjustment.
- Special M12 4-pin cable assembly with LED for status of valve signal.

## General

Material	PA, PMMA, SS, Al, Nitrile (NBR)
Temperature	0 – 50 °C

## Performance

Feed pressure, max.	0.7 MPa
---------------------	---------

## Electrical data

Current, consumption	60 mA
Humidity, max.	90 % RH
Ripple, max.	1 V <sub>rms</sub>
Safety classification	IP65 (NEMA4)

## Pneumatic data

Flow rate	0 – 7.5 NI/s (@ P1=6 bar and Δp=0.5 bar.)
Valve function	NC
